

INCREASE PROFITS WITH AN ATM IN YOUR BUSINESS

Key Benefits of Hosting an ATM

Customer Convenience

ATM's allow your customers to access all of their available cash without leaving your location.

Increased Sales

A study completed in 2004 by 7-Eleven and *Convenience Store Decisions Magazine* report that 10% to 20% of the money withdrawn from an ATM is spent in that location.

Increased Traffic

By having an ATM on location, your customers will no longer have to stop at your competitors to get cash.

Profit Center

Your ATM will generate additional income in surcharge fees, producing a profit after you pay all costs associated with your ATM. In addition, customers will withdraw and spend thousands of cash dollars more at your location!

Benefits of Working with Us

Customer Convenience

We provide unmatched customer service. You, the customer are the lifeblood of our company. As such, we try to resolve problems within 24 hours. We value each and every customer.

Processing

We provide you real-time access to transaction information on any of your terminals and on-line access to your monthly statements whenever you want. We also provide your customers access to all major networks that facilitate an ATM withdrawal.

Total Payments Solutions

Besides ATMs, we can provide a wide array of payments solutions for your business, including credit card processing, debit card processing, check processing, check guarantee, payment acceptance by internet, and more.

Available Programs

Purchase or Lease

By purchasing or leasing the ATM machine and maintaining it full with cash, you may set your own surcharge amount and keep 100% of the profit.

Placement: Get an ATM for Free!

In certain business locations we can place an ATM machine, free of charge, as well as supply all the cash, insurance, and phone line required for its operation. This program will create a worry-free setup for you, will provide convenience to your customers, and will grow your business by attracting customers and providing them with cash to spend at your location.
